### **Delivering strategic plan for Wynyard Community Hub**

The Liberal National Government has delivered a grant of \$19,635 for a strategic plan for a Wynyard Community Hub.

Liberal Senator for Tasmania Richard Colbeck said that a range of community service groups are looking to establish a physical presence for meeting clients and coordinating their efforts.

“I am very pleased to announce that a network of Wynyard community groups has been awarded a grant to undertake a strategic plan for a Community Hub in the town, which will enable them to deliver more services in the local area.

“There are 30 community groups who are supporting people in Wynyard but there is currently no physical Community Hub.

“By delivering a strong economy and a Budget surplus, the Liberal National Government is able to support community organisations in the important work they do serving people in the North West.”

Robin Krabbe from Live Well Tasmania said the grant will enable organisations to come together to deliver more for the community.

“By having a common meeting place, community organisations will be able to work together and establish if there are areas of unmet need or duplication in services in the Wynyard area.

“This Federal grant will also enable us to run a series of breakfast workshops which will bring together not-for profits and business to find common service opportunities – including potentially establishing youth-led social enterprises in Wynyard.”

Deputy Prime Minister and Minister for Infrastructure, Transport and Regional Development Michael McCormack said the Liberal and Nationals Government is committed to ensuring Australia’s regions remain strong, resilient and prosperous in the long term.
